

**COMPOSITES DURABILITY WORKSHOP 11**  
**CDW-11**  
**Seogwipo KAL Hotel, Jeju Island, Korea**  
**June 21-23, 2006**

This is the 11<sup>th</sup> Composites Durability Workshop (CDW-11) following the ten CDWs previously held in Kanazawa, Stanford, Tokyo, Albuquerque, Paris, Tokyo, Maui, Zaragoza, Shanghai, and Seattle. The workshop has brought together many leading experts in the field providing a forum to exchange new ideas and facilitate networking.

The venue for CDW-11 is Jeju island, Korea, known as the Hawaii of the far east. This island roughly the size of Oahu offers breathtaking scenery and a variety of outdoor activities. It is conveniently served by domestic flights from Seoul and other major cities in Korea as well as internationally from Japan and China. The workshop will be held at Seogwipo KAL Hotel, a four star hotel operated by the Korean Air. Located on the southern coast of the island right by the ocean, the hotel offers a magnificent view along with comfort and luxury.

**CALL FOR PRESENTATION**

Please submit one-page abstract to co-chair Byung Sun Kim ([kbs@kmail.kimm.re.kr](mailto:kbs@kmail.kimm.re.kr)), Yasushi Miyano ([miyano@neptune.kanazawa-it.ac.jp](mailto:miyano@neptune.kanazawa-it.ac.jp)) or Thomas Hahn ([hahn@seas.ucla.edu](mailto:hahn@seas.ucla.edu)) by April 1, 2006. If accepted, presentation viewgraphs are due June 1, 2006. These viewgraphs will be published in a CD.

All topics dealing with composites durability are welcome. They include, but not limited to:

Characterization – new test methods, microstructure-property relationships, etc.  
Modeling – prediction methods, statistical approaches, etc.  
Enhancement – new materials, nanocomposites, multifunctional composites, etc.  
Management – health monitoring, prognostics, health management, etc.
