

# LAB SAFETY CLASS SCHEDULES

The lab safety classes will be offered during the first two weeks of the fall quarter. These classes are mandatory for any new staff or student who will be attending classes, working or conducting research at any laboratory environment at UCLA. You will receive a signed card from the Environmental Health & Safety officer at the completion of your 2 hour class. You do not need to repeat this class for as long as you are attending school here at the UCLA Henry Samueli School of Engineering and Applied Science. While you are in a lab environment, you may be required to show this card at the request of the lab or the building manager.

To sign up for one of these scheduled classes, please forward the following information to Mr. Kinmon Leong, Lab Safety Officer at [kinmon@ehs.ucla.edu](mailto:kinmon@ehs.ucla.edu) :

First name:                      Middle initial:                      Last name:  
Department:                      Email address:                      Phone number:  
Date of desired class:
